

Research Executive Agency

Unit P4. Marie Curie – Host driven Actions

**FP7 "People" Programme: Marie Curie Actions
"Industry-Academia Partnerships and Pathways" (IAPP)
FP7-PEOPLE- 2009-IAPP**

Call identifier: FP7-PEOPLE- 2009-IAPP

Activity: Industry-Academia Partnerships and Pathways (IAPP)

Published: 24 April 2009

Deadline: 27 July 2009

Indicative Budget available: € 65 million

Status as of 18th December 2009

All proposal co-ordinators have received a quick information letter with a copy of the evaluation summary report (ESR) on November 20th. Proposals have been ranked according to these evaluation results and funding decisions will be made on the basis of this ranking.

The compulsory internal procedure of consulting other Commission services that are potentially concerned with the content of the evaluation has now been successfully completed and therefore we are now informing applicants of the final status of each proposal (see list in Annex).

Information on the selected projects will be published on CORDIS once grant agreements have been established.

IMPORTANT: Results published below are for information only and should not be regarded under any circumstances as a formal commitment by the Commission to provide financial support or otherwise, as this depends on the available budget, the outcome of negotiations and the completion of the formal procedures.

Key to provisional status of proposals and further steps

Status A: Proposal recommended for funding

Proposals in this category are positioned within the available budget. They will be invited to enter into Grant Agreement negotiation in the beginning of 2010. Negotiations will take place between the REA and the proposal Coordinator. These negotiations will fix all contract details, and in particular the Annex I "Description of work", the funding to be allocated to the project and its start date. Subject to the successful completion of the negotiations, proposals with an A status will be submitted in batches to a formal selection procedure and will receive a Grant Agreement offer for signature by both parties.

Status B: Proposal on the reserve list

Funding for these projects could be available depending primarily on the outcome of the negotiation of proposals of status A. Applicants will be contacted in due time either to enter into contract negotiations or to inform them that the reserve list is closed and that their project will be rejected because of lack of funding. If not invited to enter into negotiations, proposals of status B will be submitted to a final formal rejection procedure and will receive a rejection decision letter from the Commission.

Status C: Proposals above thresholds but not retained for funding nor on the reserve list because of lack of budgetary resources

Proposals with a C status have passed all thresholds; however, they cannot be retained due to budgetary constraints and will be rejected. Proposals will be submitted to a formal rejection procedure and will receive a formal rejection decision letter from the Commission in the coming months.

Status D: Proposals failing one or more thresholds

Proposals with a D status have failed either an individual or the overall thresholds. These proposals will be rejected. Proposals will be submitted to a formal rejection procedure and will receive a formal rejection decision letter from the Commission in the coming months.

Overall Statistics:

Number of proposals submitted: 358

Number of withdrawn proposals: 0

Number of ineligible proposals: 2

Number of proposals on status A: 59

Number of proposals on status B: 21

Number of proposals on status C: 140

Number of proposals on status D: 136

Annex: List with status of evaluated proposals
