
Research Impact:

**the Link between Horizon 2020
and
the Research Excellence
Framework**

UKRO Conference 2018

When you mention EU funding to REF leads
in universities...

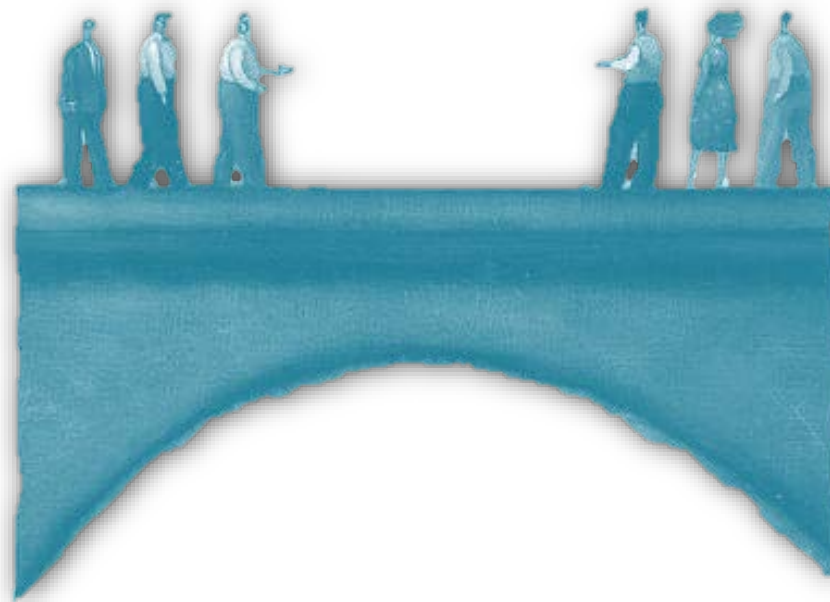

When you mention REF to EU funding officers...

Yet...

EU funding is a contributor to REF returns

REF can drive the take up of funded EU activities

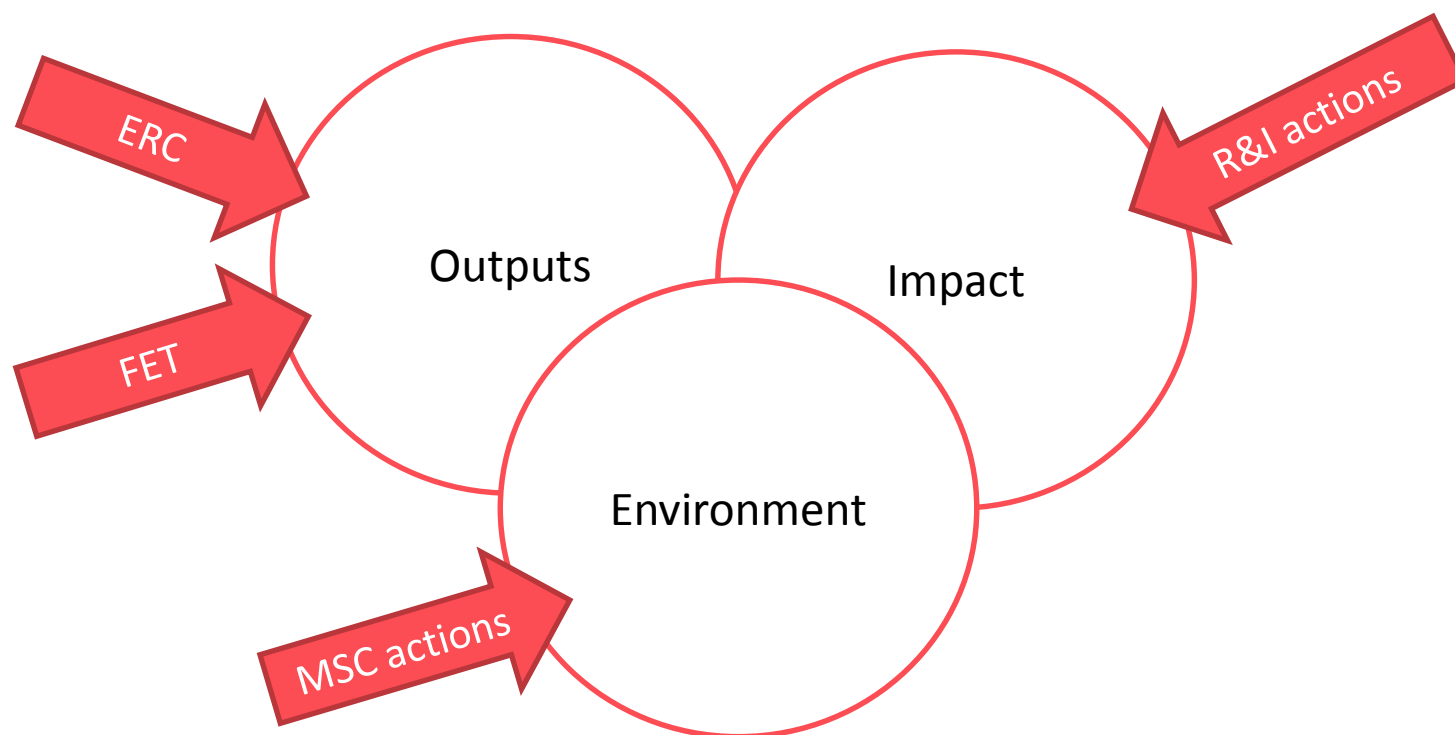

Dr Steven Hill
Head of Research Policy, Research England

Mr Peter Staniczenko
Head of Research Performance, University
of Southampton

Considerations and Perspective for ELOs

All the schemes in Horizon 2020 / Horizon Europe can indirectly contribute to REF outputs or returns

Considerations and Perspective for ELOs

REF preparations within your institutions gives you quick access and knowledge to what is happening research wise across all academic areas.

It is a fantastic “tool”

- To identify the most relevant calls.
- To identify and target the most active researchers.
- To refine your understanding of your Faculties/Schools/Departments and enhancing your interaction with them.
- To interact with another set of people and relay your message e.g. REF leads, impact leads, etc.
