ERC Consolidator Grant

Supports researchers to consolidate their independence by establishing a research team and continuing to develop a successful career in Europe

2 Million euros | Up to 5 years

**Researchers who have defended their PhD
5 to 15 years prior to 1 January 2027**

Additional funding

Up to 1M euros

For grantees already working in the EU's MS or AC

Up to 2M euros

For grantees moving to EU's MS or AC

Can be request for **any purpose** Including personnel costs

ERC-2027-CoG | Timeline

€618 M

296 grants

Eligibility

Principal Investigator Eligibility

Who?

No restrictions based on age, nationality, current location or current employment/contract status

Where?

Must have an institution **based in an EU Member State (MS) or Associated Country (AC)** willing to host them

Principal Investigator Eligibility

Time Commitment in the ERC Consolidator

- **40%** minimum of working time on grant
- **50%** minimum time in EU's MS or AC

Extension of the eligibility window

**Successful defence of PhD
5 to 15 years ago**

successfully defended their PhD
not earlier than 1st Jan 2012

Maternity leave

18 months per child
or longer if documented

Paternity or parental leave

Long-term illness or National service

Disability

Clinical training

Maximum 4 years

Major Disaster

Seeking Asylum

Gender-based Violence or Any Other Form of Violence

No more than 1 Consolidator Grant per researcher in a lifetime

UK Research
and Innovation

[General info about ERC Consolidator Grants](#)

Host Institution Eligibility

- Any type of legal entity
- Based in an EU Member State or Associated Country
- Have the infrastructure to enable PI's independence
- Must not constrain the PI to the institution's research strategy
- Must engage the PI for project duration
- Not assessed at evaluation

Sign the Grant Agreement with the Commission
Sign the Supplementary Agreement with the PI

Team Members

- Any age, nationality or country of residence
- Based anywhere in the world
- Cannot be co-investigators
- Assigned to specific project outputs/tasks
- At any level of seniority (including technicians and project managers)

All encoded by their HI/beneficiary!

Part A | Budget

3 - Budget

Beneficiary Short Name	PI	Senior staff	Post docs	Students	Other staff	A. Total personnel costs €	B. Subcontracting Costs € (No indirect costs)	C.1 Travel and subsistence	C.2 Equipment - including major equipment	Consumables incl. fieldwork and animal costs	Publications (incl. Open Access fees) and dissemination	Other additional direct costs	C.3 Total other goods, works and services	C. Total Purchase costs €	D. Internally invoiced goods and services € (No indirect costs)	E. Indirect Cost €	Total Eligible Costs	Requested EU contribution €
United Kingdom Research And Innovation	0	0	0	0	0	0.00	0	0	0	0	0	0	0.00	0.00	0	0.00	0.00	0.00
Total	0	0	0	0	0	0.00	0	0	0	0	0	0	0.00	0.00	0	0.00	0.00	0.00

Section C. Resources

This section and the budget table will be made available to the experts evaluating the proposal at Step 2. Important: your description of resources will be truncated once it exceeds the maximum allowed characters. Please make sure that your description is complete before submitting.

State and fully justify the amount of funding considered necessary to fulfil the objectives for the duration of the project. The project cost estimation should be as accurate as possible. The evaluation panels assess the estimated costs carefully; unjustified budgets will be consequently reduced. Please specify if you will use third parties giving in-kind contributions to the action.

If applicable, please specify the cost items covered by your 'Other personnel costs' category and the cost items covered by your 'Other additional direct costs' category.

Request for additional funding if applicable (All items MUST be included in the overall budget table above): (Cost in EUR)

Justification:

In a narrative way (8000 characters)

This part **will be extracted** and provided to the peer reviewers at **Step 2 evaluation**

Part A | Budget

Clarification on Exchange Rate

The exchange rate to be applied on the costs estimates should be

- the one applicable by the ECB at the time of proposal submission or
- the average over a 30-month period before the call opening.

This provision, which has been specifically included in the 2027 ERC Work Programme, is a clarification rather than a policy or rule change.

It is therefore applicable to the calls of all ERC grant schemes.

Part A | Ethics & Security questions

4 - Ethics & security

Ethics Issues Table ?

1. Human Embryonic Stem Cells and Human Embryos	Page
Does this activity involve Human Embryonic Stem Cells (hESCs)?	☐ Yes ☒ No
Does this activity involve the use of human embryos?	☐ Yes ☒ No
2. Humans	Page
Does this activity involve human participants?	☐ Yes ☒ No
Does this activity involve interventions (physical also including imaging technology, behavioural treatments, etc.) on the study participants?	☐ Yes ☒ No
Does this activity involve conducting a clinical study as defined by the Clinical Trial Regulation (EU 536/2014) ? (using pharmaceuticals, biologicals, radiopharmaceuticals, or advanced therapy medicinal products)	☐ Yes ☒ No
3. Human Cells / Tissues (not covered by section 1)	Page
Does this activity involve the use of human cells or tissues?	☐ Yes ☒ No
4. Personal Data	Page
Does this activity involve processing of personal data?	☐ Yes ☒ No
Does this activity involve further processing of previously collected personal data (including use of preexisting data sets or sources, merging existing data sets)?	☐ Yes ☒ No
Is it planned to export personal data from the EU to non-EU countries? Specify the type of personal data and countries involved	☐ Yes ☒ No
Is it planned to import personal data from non-EU countries into the EU or from a non-EU country to another non-EU country? Specify the type of personal data and countries involved	☐ Yes ☒ No
Does this activity involve the processing of personal data related to criminal convictions or offences?	☐ Yes ☒ No
5. Animals	Page
Does this activity involve animals?	☐ Yes ☒ No
6. Non-EU Countries	Page
Will some of the activities be carried out in non-EU countries?	☐ Yes ☒ No
In case non-EU countries are involved, do the activities undertaken in these countries raise potential ethics issues?	☐ Yes ☒ No
Is it planned to use local resources (e.g. animal and/or human tissue samples, genetic material, live animals, human remains, materials of historical value, endangered fauna or flora samples, etc.)?	☐ Yes ☒ No
Is it planned to import any material (other than data) from non-EU countries into the EU or from a non-EU country to another non-EU country? For data imports, see section 4.	☐ Yes ☒ No
Is it planned to export any material (other than data) from the EU to non-EU countries? For data exports, see section 4.	☐ Yes ☒ No

Follow the guidance document

Your Scientific Proposal

Part I vs Part II

Is this a **great idea** that would be worth pursuing?

Can that idea be pursued **realistically**, and if so, in the manner and with the approach that the applicant proposes?

Part I

5 pages (max)

Explain the **scientific question & the objectives** of the project

Present the **overall approach or research strategy** to reach the goals of the project

Lay out the **current state of knowledge**

Part II

7 pages (max)

Describe the **implementation**

Work plan

Methodology

**Risk
assessment**

☎ +32 2 29 92222

In this step you can edit the Administrative Forms and upload the proposal and its annexes. You may return to this step from the 'My Proposals' section of the Funding & Tenders Portal.

Submit your proposal as early in the process as possible - you can update and resubmit an improved version many times before the call closure.

Submitting a proposal will overwrite any previous versions of this same proposal - this process is irreversible.

Any changes made to the proposal will not be available to the European Commission service unless resubmitted before the call closure.

Your proposal contains changes that have not yet been submitted.

Evaluation Process

ERC-2027-CoG | Evaluation

Evaluation in two steps

Step 1

Feasibility is **NOT** going to be addressed at step 1

Step 2

What is the evaluation based on?

Principal Investigator

intellectual capacity,
creativity
commitment

Research project

ground-breaking nature
ambition

Evaluation of the Research Project

Ground-breaking nature & ambition

Step 1

To what extent...

- ...does the research address important scientific questions?
- ...are the project's objectives ambitious and will it advance the frontier of knowledge ***and is the proposed approach scientifically convincing?***

To what extent...

Step 2

- ...does the research address important scientific questions?
- ...are the project's objectives ambitious and will it advance the frontier of knowledge ***and is the proposed approach scientifically convincing?***
- ...are the research methodology and working arrangements appropriate to achieve the goals of the project?
- ...are the timescales and resources adequate and properly justified?

Evaluation of the Principal Investigators

Intellectual capacity and creativity

To what extent...

- ...the PI demonstrated the ability to conduct ground-breaking research?
- ...the PI provides evidence of creative and original thinking?
- ...the PI has the required scientific expertise and capacity to successfully execute the project?

Evaluation outcomes and resubmission restrictions

New submission restrictions

No more than 1 Starting Grant (StG) and 1 Consolidator Grant (CoG) per researcher in a lifetime

and Innovation

OFFICIAL

Other aspects to consider

On Proposal Writing

- **Total Authorship Responsibility:** Applicants are permitted to use AI for brainstorming, literature searches, or language polishing, but they remain solely and fully responsible for the entire content of the proposal. This includes ensuring the accuracy of all information, avoiding AI-generated hallucinations, and strictly adhering to scientific integrity and anti-plagiarism standards

On Proposal Evaluation

- The ERC strictly prohibits the use of AI for the evaluation of proposals to protect intellectual property, that is, external AI tools does not lead to the unauthorized disclosure of sensitive research data or personal information to third-party platforms

Open Science

Under Horizon Europe, beneficiaries of ERC grants must ensure open access to all peer-reviewed scientific publications relating to their ERC project results.

Open access means accessible on:

- a trusted repository
- under a CC BY (or equivalent) licence (either to the ‘author accepted manuscript’ or the published ‘version of record’).

For long-text publications like monographs

- a CC BY-NC / ND / NC-ND licence (or equivalent) is acceptable.
- The ERC Scientific Council recommends the use of the OAPEN Open Books library (<https://oapen.org>) as repository for monographs and other books as well as book chapters.

- ❖ [Guidelines on FAIR Data Management in Horizon 2020](#)
- ❖ www.openaire.eu
- ❖ <https://www.fosteropenscience.eu/>

Publishing Fees will be eligible for funding if the venue is fully open access (i.e. a full open access journal or book, or an open access publishing platform like, e.g., Open Research Europe)

Open Research Europe

Scholarly **publishing platform** that will provide Horizon 2020 and Horizon Europe beneficiaries with a no-cost full open access peer-reviewed publishing service, across all fields of research

<https://open-research-europe.ec.europa.eu/>

Gender

Sex and Gender dimension of your project

- Not a strict requirement in of itself, but..
- Integrating the gender dimension in research and innovation can make your proposal more competitive
- Proper consideration of sex and gender in research design is often evaluated as added excellence to the research question and methodology.
- **Some basic questions you can ask in project design:**
 - Are some of your findings going to be gender specific?
 - Do you justify your gender choices in the research design to peer reviewers?
 - If the topic is not relevant to Sex & gender, do you explicitly acknowledge that consideration?

Find more tips and guidance:

In a recent [ERC workshop](#) about how ERC-style excellence in different domains can be interrelated with the Sex and Gender Dimension.

Gender rules for eligibility and in the Part A form

- **A Gender Equality Plan (GEP)** has to be in place for the Host Institutions before the signature of the grant agreement.
- GEPs are the Host Institution's responsibility, it is not the Principal Investigator's responsibility
- Proposal PI and team members' gender and career stage details requested in Part A are not seen by evaluators.
- These Part A personal details are used in a quantitative way by the Commission to monitor progress towards gender equality and better careers in the European research sector
